# Address Stellingdamm 2 12555, Berlin

### **Education**

Jun 2017 - Jun 2021 Computer Science Engineering BVB College of Engineering

# **Profile**

A passionate software engineer with 2 years of specialized experience in Angular development. Skilled in translating business requirements into technical solutions using Angular, TypeScript, JavaScript, and HTML/CSS. Proficient in collaborative team environments, leveraging a deep understanding of the software development lifecycle and agile methodologies for timely project delivery. Equipped with strong problem-solving and communication skills and dedicated to crafting intuitive user interfaces. Seeking to contribute technical expertise and drive innovation within a dynamic team environment.

# **Professional Experience**

# Software developer I LTIMindtree I Bangalore, India

Oct 2021 - Oct 2023

- Spearheaded the development and implementation of an Angular-based client application to track, monitor, and generate reports, including project status and progress, through admin and viewer dashboards.
- Collaborated with the back-end development team to integrate RESTful APIs, resulting in a 40% reduction in data retrieval time and robust functionality.
- Boosted application performance by implementing lazy loading and code splitting, leading to faster load times and enhanced user experience.
- Contributed to the development of a reusable component library, promoting code reuse and enhancing maintainability.
- Led the development of a web application using Angular, TypeScript, HTML, and CSS, adhering to best practices and agile methodologies, resulting in 95% on-time project delivery.
- Collaborated with cross-functional teams to design and implement new features, ensuring alignment with business requirements and delivering high-quality software products.

#### Achievements

- Enhanced application performance, reducing load times by 30% through optimization techniques.
- Improved code efficiency by 20% by developing reusable components and services, contributing to maintainability and scalability.
- Received positive feedback for delivering intuitive and visually appealing user interfaces, consistently exceeding expectations, with an increase in customer satisfaction by 20%.

#### Bachelor Thesis I Manomaya Software Services I India

Feb 2021 - Jul 2021 (Title: E-Commerce Application Development)

- Led the design and development of an e-commerce application, focusing on creating a seamless shopping experience.
- Implemented user-friendly features for browsing product details, placing orders, and managing customer accounts.
- Technologies used: PHP, JavaScript, HTML, CSS, Bootstrap, jQuery, AJAX, REST API, and MySQL.

# Languages

- English (Fluent)
- Deutsch (Basic)
- Kannada (Native)
- · Hindi (Fluent)

# **Projects**

# Movie Booking Application

- Spearheaded the design and development of an intuitive user interface for seamless navigation, resulting in a 25% increase in user engagement.
- Applied Angular components for browsing movies, selecting showtimes, and booking seats.
- Technologies used: MEAN stack (MongoDB, Express.js, Angular, Node.js).

# **Task Manager Application**

- Led the development of a Task Manager application using Angular, emphasizing user-friendly design and seamless functionality, which refined task tracking efficiency by 20%.
- Enforced responsive design techniques with HTML and CSS, ensuring optimal viewing across various devices, achieving a 95% mobile compatibility rating.
- · Technologies used: Angular, HTML, CSS

# **Certifications**

# Web stacks mean development

Mindtree orchard learning program.

## Full Stack Web developer

Data Flair online course.

# Certified in Angular advanced level

Great Learning online course.

Other Skills: Responsive Design.

#### Certified in web of data

Coursera online course.

# Technical skills

7	Programming Languages: JavaScript, Typescript, PHP.
5	<b>Frontend Frameworks/Libraries:</b> Angular, AngularJS, React, jQuery Bootstrap.
þ	Web Technologies: HTML, CSS, SCSS, AJAX.
5	<b>Backend Technologies:</b> MongoDB, Express.js, Node.js, MySQL, REST API.
þ	Version Control: Git
5	<b>Tools:</b> Angular CLI, npm, Webpack, Jasmine/Karma, Postman, Azure Devops.
